6	2025-05-21	Despina	Arkadeep		Felix	Eloi	
7	2025-05-28	Arkadeep	Despina		Fahim	Eloi	Mid-term due
8	2025-06-04	Despina	Arkadeep			Eloi	
9	2025-06-11	Arkadeep	Despina		Finn	Eloi	
10	2025-06-11	Despina	Arkadeep		Subroto	Eloi	
11	2025-06-18	Arkadeep	Despina		Faria	Eloi	
12	2025-06-25	Despina	Arkadeep		Justus	Eloi	
13	2025-07-02	Arkadeep	Despina		Felix	Eloi	
14	2025-07-09	Despina	Arkadeep		Fahim	Eloi	Demo day!
15	2025-07-16	Arkadeep				Eloi	Retrospective
Product owners, software developers, and Scrum Master are set and ideally don't change over time; the critical part is the Release Manager role you need to define here							

Goals	Have an enjoyable experience in working together
	learn from each other
	Our teams tries to create tangible progress with the application every week
	Complete ECTS and get good grade
	Provide a usefull solution to meisterwerk
Meeting norms	All team-meetings are mandatory unless a valid reason is communicated in advance
	be on time to value each other's time
	Ask questions if your are not clear on something.
	The meeting starts on time, even if not all members are present yet
	Camera On :)
Working norms	Team members should be open to feedback and view it as a growth opportunity
	We use feature, development and fix-branches in git
	When we face problems or fail to reach our goals, we should communicate that as soon as possible
	Always help each other!
	agree on who does what and keep track of it
	Follow coding conventions
	Openly communicate working capacity, so work can be attributed accordingly
	Keep each other updated about progress
Coordination norms	The Product owners for Review and Planning respectively switch every week
	The PO's (at least, devs are always welcome to join) meet with the industry partner at regular intervals and communicate feature requests to the rest of the team
	When facing decisions that cant be resolved in a discussion, we put it to vote
	keep essential information and links to tools centralised in one place (seperate discord channel)
Communication norms	Use the communication tools that we have. In our case a Discord Server
	We should answer within one day
	There are no stupid questions!
	Communicate respectfully and let everybody speak out
	Respect each others opinions, we are all here to learn :)
	constructive criticism, talk about solutions
	communicate illnesses and expected work downtime and what it means for others
	Smaller problems with persons in thew group should be voiced in meetings, larger concerns should be discussed in a one-on-one call first
Consideration norms	Each task will have a primary owner(s) and a reviewer to ensure accountability and quality.
	Talk about the problem, talk with the roles, get the context. Communication is very important to understand everything
	prefer to speak in public over speaking privately?
Cont. improvement norms	Keep 15 minutes atleast for Sprint retrospective

	Give constructive feedback on Pull Requests
Rewards	
	One evening/afternoon/whatever of fun online games
Sanctions	
	10 minutes of mandatory guided meditation... with a goat yoga video soundtrack
	A silly video-filter has to be activated for the next meeting
Signatures	
Scrum Master	Eloi Sandt
Product owner	Arkadeep Dutta
Product owner	Despina Karkani
Software developer	
Software developer	Subroto Karmokar
Software developer	Faria Rahman Khanam
Software developer	Md Fahim Uddin
Software developer	Finn Harms
Software developer	Justus Kleinau
Software developer	Felix Summerer

Product Vision	Project Mission
The reason of existence of the envisioned product (beyond this project).	The mission of this particular project (in the context of the product vision).

Term	Definition

Sprint #	Sprint goal
1	None
2	Focus on the Excel File Upload Page & the implementation of the first Optimization Plan

How to play planning poker							
1. Everyone type their number into their value field, don't hit return yet							
2. Someone, perhaps a product owner, count down 3.. 2.. 1..							
3. Then, everyone hit return to submit their value
